T C DIVYASHREE | SOFTWARE ENGINEER

divya29shreetc@gmail.com | **+91 7019940365** | linkedin.com/in/tcdivyashree

divyashree.29.netlify.app/ (**PORTFOLIO**) | github.com/divyashree029 (**GITHUB**) | **BENGALURU, INDIA**

Objective

A passionate Software Engineer with hands-on experience in Java, Spring Boot and REST APIs, with a focus on building scalable web applications. Proven ability to reduce manual effort through system design, backend development, and full-stack solutions. Seeking a development-focused role to build high-impact, user-centric software products.

Work Experience

LG Soft India (LGSI) | Software Engineer

July 2024 – March 2026

- Contributed to backend services for a workflow-based reporting system using Spring Boot, reducing report generation time by ~65% for internal teams.
- Designed a **multi-tier Controller–Service–Repository architecture** aligned with **SOLID principles**, reducing inter-module dependencies and improving long-term maintainability.
- Optimized **MySQL queries and schema indexes,** cutting data-intensive API response times from 2.7s to 1.4s (48% improvement).
- Implemented and enhanced **centralized exception handling** and validation layers, resulting in a **30% drop in production-level bug reports**.
- Collaborated on a production-grade Spring Boot application used by **4500+ internal users**, contributing to **backend enhancements focused on stability and data accuracy.**
- **Refactored service-layer logic** and optimized database queries to improve maintainability and performance under concurrent usage.

Ahana system and software Pvt Ltd | Data Analyst Intern

February 2024 – April 2024

- Gained understanding of the **end-to-end data analysis workflow**, including **data collection, cleaning, and transformation** into business insights.
- Developed foundational knowledge of **data interpretation** and **visualization** techniques to support decision-making.
- Built awareness of **ML model evaluation** and how models are assessed for performance within the ML lifecycle.

Technical Skills

- **Backend:** Java, Spring Boot, REST APIs, Spring Security (JWT), Spring Data JPA, Microservices
- **Frontend:** React.js (Hooks, Components, API Integration), JavaScript, HTML/CSS
- **Data & Messaging:** MySQL (Schema Design, Normalization, Indexing, Query Optimization), Apache Kafka
- **Cloud & DevOps:** AWS (EC2, S3, RDS, Lambda), Docker, Kubernetes, CI/CD, Jenkins, GitHub
- **Testing:** JUnit, Mockito
- **Core Concepts:** OOP, DSA, System Design (LLD/HLD), Generative AI
- **Developer Tools:** GitHub Copilot, Cursor, Tabnine, Postman, Git

Projects

Full Stack Expense Tracker Application (Link)

Spring Boot, REST APIs, Spring Security (JWT), JPA/Hibernate, MySQL, React.js, Docker | Nov 2025

- Users struggled to track and understand their spending patterns - built a full-stack expense tracker with real-time analytics, **achieving 95% improvement** in spending insight accuracy.
- Implemented JWT-based authentication and role-based access control to ensure secure, stateless cross-session communication across all API endpoints.
- Optimized MySQL schema and JPA/Hibernate queries, reducing average query latency by **52%** and supporting scalability for **10K+ transactions**.
- Containerized with Docker and integrated a React frontend with RESTful APIs, delivering instant category-wise visual summaries and a seamless user experience.

AI-Powered Pdf Interaction Bot (Link)

A Generative AI Project – Machine Learning | Oct 2024

- Created a generative **AI chatbot** that utilized libraries including **Streamlit, Langchain, and FAISS.** Enabled PDF uploads, text extraction, and real-time conversations.
- Employed **Google Palm-2** embeddings for language understanding **(Large Language Model).**
- Incorporated conversation history for context-aware responses, improving user interactions

∴ Publications

- Published research paper **"Digital Notice Board using Wi-Fi Module"** at **IEEE-MRTM Conference (Sept 2023)**, demonstrating expertise in IoT and embedded systems

Extracurricular Curriculum and Certifications

- REST API Integration and Controllers – **JP Morgan Chase & Co**
- Introduction to Generative AI - **Google cloud**

Education

New Horizon College of Engineering, Bengaluru **2020-2024**

- B.E in Electronics and Communication Engineering | **CGPA- 8.9**
